MINING COMPONENTS AND MACHINERY

Quality Solutions

Used & New

LOADERS & TRUCKS | BULLDOZERS | MINING EXCAVATORS | DRILLS

At our equipment depots, you'll find a wide range of new & used mining attachments for Cat, Komatsu, P&H, Epiroc, Bucyrus & Hitachi machines. Can't find what you need in our stock? No worries! We'll locate the perfect unit to meet your requirements

P&H

KOMATSU

Buckets & Blades

Whether you need robust buckets for efficient material handling or precision blades for smooth excavation, our attachments deliver exceptional results.

For mining excavators, loaders and electric rope shovels. At RKT International, we offer a wide range of heavy machinery attachments that are meticulously engineered to withstand the demanding conditions of mining operations.

REMAN ENGINES

Remanufactured to factory specs using only original parts & dyno tested

We offer engines not just for trucks but also for diverse industries like construction & mining. Keep your old engine as spare parts, and we'll provide the engine you need. We ship used heavy-duty truck engines worldwide.

ENGINE CORE

We offer numerous used Caterpillar & Komatsu engines for sale. Can't find the specific engine you need? No worries! Our strong partnerships with 30+ vendors and suppliers across the USA, Canada, Latin America & Australia allow us to locate complete engine cores for you.

HYDRAULIC CYLINDERS

Powering your Operation

As a top-notch provider of new & refurbished Hydraulic Cylinders for Caterpillar®, Komatsu® Epiroc, Bucyrus, P&H & Hitachi®.

We offer substantial savings on replacements and related parts without compromising on performance and reliability.

Trust in our expertise to keep your operations running smoothly and cost-effectively.

CYLINDERS SEAL KITS

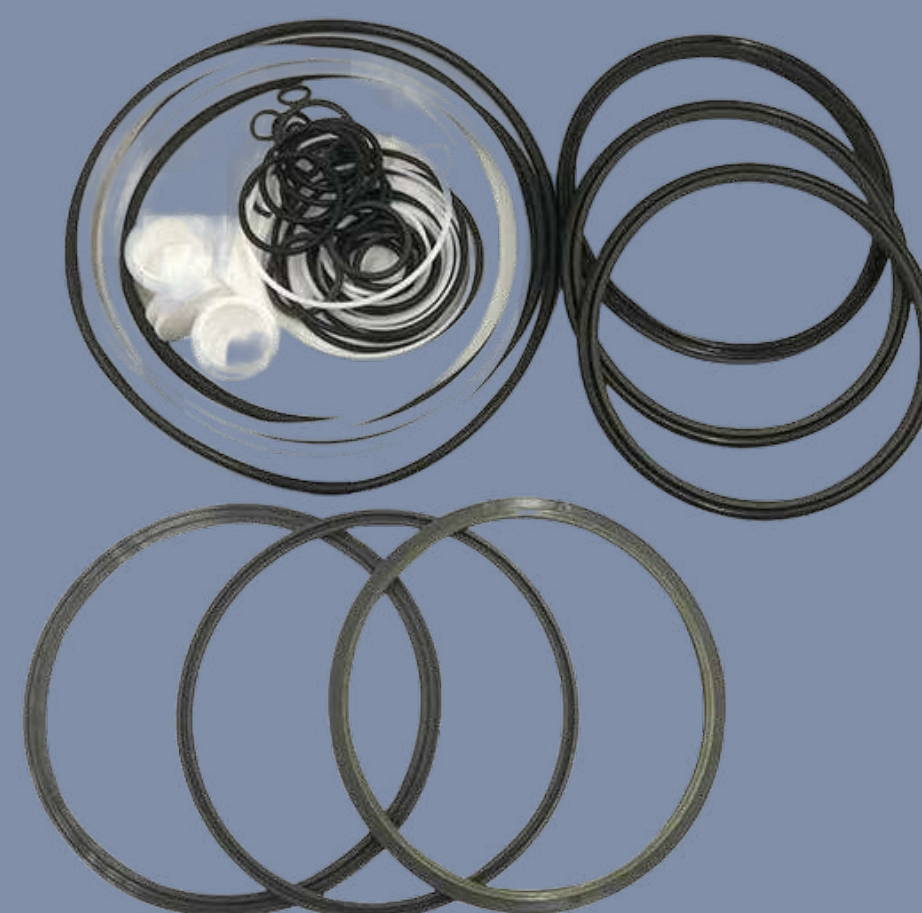

Discover our top-tier, high-performance Tier 1 replacement seal kits catering to all your equipment needs, be it wheel loaders or excavators. With our seal kits, extend the lifespan of your hydraulic cylinders, minimize downtime, and reduce repair intervals.

Enhance uptime and slash operating costs across your fleet of Komatsu equipment, spanning from Wheel Loaders to Dozers to Excavators. Our expertise can be your solution!

Maximize uptime and minimize operating costs for your fleet of Bucyrus equipment, whether it's Hitachi Haul Trucks, Mining Shovels, or Excavators. Count on us to be your reliable partner in achieving these goals!

Quality Solutions

New & Reman

KOMATSU

HITACHI

Maximize equipment uptime and minimize operating costs across your Hitachi equipment fleet, including Hitachi Haul Trucks, Mining Shovels, and Excavators. Trust us as your steadfast partner in accomplishing these objectives!

Our repairs are conducted by GE & Siemens, adhering to the highest standards to ensure superior quality and flawless functionality of electronic cards for the trucks. To meet these stringent criteria, GE & Siemens thoroughly test all our repaired cards in simulators before delivering them to our valued customers.

To deliver this specialized service promptly, we collaborate with seasoned professionals who possess extensive expertise in handling cards for electric drive systems. Their years of experience enable us to ensure timely and efficient execution of this specific service for our customers.

MINING EQUIPMENT FOR SALE

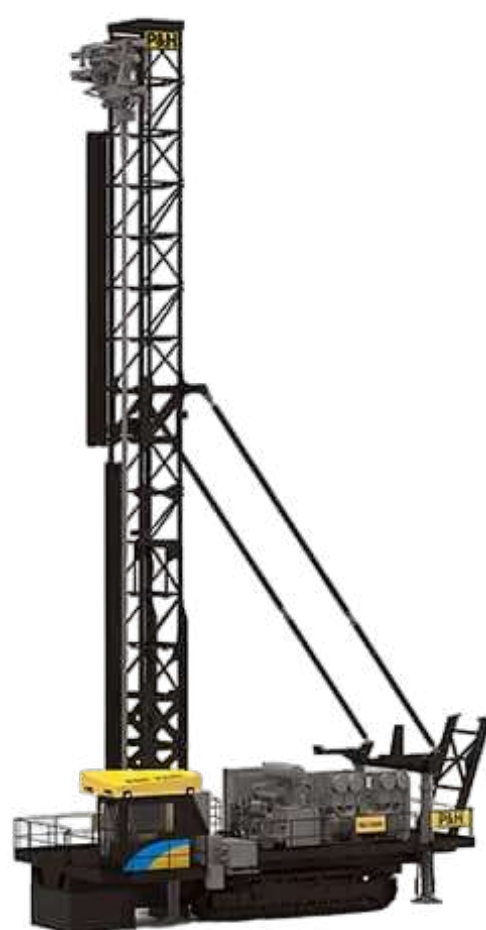

Powering your Operation
